

HydroStat Housing Upgrade

- 1. Improved Wiring Access:** Taller housing (extra 3/8") along with a shallower base (and deeper cover) provides more space for field wiring and better access to the terminal block
- 2. Removable Door Hinges:** Easier access for setup or servicing
- 3. Water Resistant:** Water tight top with recessed flat-top LEDs for better protection against water intrusion
- 4. Easier Remote Mounting:** Direct (zip screw) mounting eliminates need for current bracket mounts
- 5. Thermostat Access:** Added entrance point for easy thermostat wiring
- 6. New Ground Plate for Top Knockouts (Optional):** Allows installers to use top knockouts for incoming power in older, 2-wire applications
